delle Ricerche

Institute of Organic Synthesis and
Photoreactivity

Fifth International Workshop on

“Nitric Oxide and Cancer”

March 22-24, 2017 Bologna (Italy)

Italian National Research Council Area Via P. Gobetti, 101 40129 Bologna

Organized by

Dr. Greta Varchi

CNR-ISOF, Bologna

Dr. Valentina Rapozzi

University of Udine

Prof. Benjamin Bonavida

University of California, USA

Invited Speakers *Prof. V.A. Yakovlev* (Virginia Commonwealth University, USA); *Prof. B. Bonavida* (University of California, USA); *Prof. S. Planchette* (Tumor Immunology and Immunotherapy Laboratory, France); *Prof. G. Bauer* (University Medical Center, Freiburg, Germany); *Prof. T. R. Billiar* (University of Pittsburgh, USA); *Prof. Salvatore Sortino* (University of Catania, Italy); Prof. Albert W. Girotti (Medical College of Wisconsin); *Prof. J. Muntané* (Institute of Biomedicine of Seville, Spain); *Professor D.A. Wink* (National Cancer Institute, USA); *Professor K. Kashfi* (The City College of New York, New York, USA); *Prof. S. Moncada* (University College London, UK); *Prof. D. Russell* (University of East Anglia, UK); *Prof. C. H. Graham* (Queen's University, Canada)

Sessions **1** - NO, mutagenesis, carcinogenesis, tumor promotion and tumor growth; **2** - Nitric oxide regulation of cell death pathways; **3** - Nitric oxide: proliferation and epithelial-mesenchymal transition; **4** - NO-based therapies: from the bench to the bedside

Conference proceedings will be published on a special issue of Critical Reviews in Oncogenesis
